Overview

Gary is a member of the firm's Corporate Department, and chairs its Intellectual Property and Technology Practice Group. His practice includes protecting and licensing intellectual property, negotiating and drafting Internet related agreements, counseling clients on technology and e-commerce matters, franchising, and general corporate representation. He also handles complex litigation, including patent infringement, trademark and copyright actions.

Experience

- Represented a medical publisher licensing content to a medical information Web site.
- Represented a global food processor licensing a well-known brand name.
- Negotiated distribution and license agreements with national retailers on behalf of a client offering on-line learning courses.
- Developed an international franchise program for an on-line software distributor.

Recognitions

- Massachusetts Super Lawyer in 2004
