Overview

Sanjeev is a member of the firm's Intellectual Property and Technology Practice Group. His practice is focused on assisting clients with identifying and procuring patent rights, and providing opinions (freedom to operate, invalidity), litigation support, and patent related transactional support such as reviewing agreements for IP licensing, Non-Disclosure agreements (NDAs), and agreements with contract research organizations (CROs).

Sanjeev has drafted and prosecuted patent applications in a wide variety of technology areas including biotechnology, microbiology, immunology, pharmaceuticals, chemistry, materials science, nanotechnology, drug delivery, personalized medicine, and diagnostics.

Prior to joining the law profession, Sanjeev was Director of Research in a Biotechnology company focused on developing cancer therapeutics. Previously, Sanjeev carried out postdoctoral research in molecular biology at Harvard University and at the New York University Medical Center.
